**ROR tool**

Raster Object Recognition tool

Transforming Automation for

Optimal Efficiency

OUR SCIENTIFIC TOOL

Automatic detection of small particles in images, reducing the need for manual processing and saving time

Convolutional neural networks ensure high accuracy and speed in image processing

The web application offers users convenient tools for viewing and saving analysis results, as well as generating reports

WHAT MAKES US THE IDEAL CHOICE?

The ability to adapt for solving specific user tasks

CONTACT US

STATE-OF-THE-ART CV

Detection is performed using state-of-the-art computer vision approaches and the most efficient convolutional neural network models

STAT ANALYSIS

The capability to generate essential statistical characteristics of detected objects

HIGH SPEED

Detection of ~1000 small particles within seconds
